ANNUAL REPORT
OF THE
SUPERINTENDING SCHOOL COMMITTEE
FOR THE TOWN,
AND OF THE
BOARD OF EDUCATION
For School District No. 8,
IN THE
TOWN OF ROCHESTER,
FOR THE
YEAR ENDING MARCH, 1883.

TOWN OF ROCHESTER, March 11, 1885.

At the annual town meeting, holden on the tenth day of March, 1881, the following vote was passed:

Voted, That the report of the Superintending School Committee be printed annually hereafter with the town reports and distributed.

Attest,

HORACE L. WORCESTER, Town Clerk.

SCHOOL COMMITTEE'S REPORT.

The schools for the year have been more prosperous and efficient than could well be expected with our present school system, or want of system. With a few exceptions, they would be termed "good schools"; yet, nevertheless, their efficiency is far from what it ought to be and might be with more skillful management.

Efficient teachers are indispensable requisites to successful management.

The duty of selecting them should, therefore, be entrusted to only faithful and conscientious persons, experienced in school work and familiar with the necessary qualifications of a successful teacher. But our prudential committees, who have the entire control of the selection of teachers, do not generally possess these requirements in any eminent degree. As a certain state superintendent of instruction says, "they know as a rule but little about education, and as for the fine points that go to make a good teacher, or good instruction and successful school management, these are beyond their comprehension. So, in selecting teachers, they are governed by prejudice and favoritism, or, even when most conscientious, by the proverbially fallacious guide, appearances. In fact, it is a matter of chance whether a competent teacher is secured or the public money squandered." True, the superintending committee may refuse certificates, and, if literary at-

tainments were the only essentials of a successful teacher, this might be a sufficient remedy. But such is not the case. The essentials which go to make an efficient teacher are various, many of which can be known only by actual observations in the schoolroom. It may be, however, not only that in a majority of cases the committee have had no opportunity for such observation, but that often the applicants for certificates are entire strangers to them. The power of the superintending committee can, therefore, be no adequate remedy.

Another evil of the system of prudential committees is the frequent changes of teachers it occasions. They are quite sure to be changed every year and often every term. Every time, however, that a change is made the teacher must learn anew the attainments, dispositions and abilities of the pupils. If the school is of any considerable size, weeks will be consumed and well nigh wasted before the work of the school can be taken up and carried forward as effectively as by the former teacher. If, by chance, it should be found that an inefficient teacher has been employed, why, then, a change should certainly be made, and the sooner made, and a competent one secured, the better. But under our present system the competent teacher is hardly more sure of retaining a position any length of time than the incompetent. "A school may be favored one term with a wise, conscientious, firm, loving and versatile teacher of excellent education, and the next term it may pass into the charge of a callow youth, a crude girl, or a man or woman of inferior mind and harsh, unsympathetic nature, who teach only for the pay they are to receive."

The fact is, we need a "civil service reform" in the mode of selecting teachers.

Another source of injury to the rural schools is the pau-

city in the number of scholars attending them. Schools may be too large for thorough and efficient work, or so small that the force and enthusiasm engendered by numbers may be wanting. Either is detrimental to successful school work. The Bureau of Education, in a circular, makes the statement that "if the average attendance of a school be less than twenty scholars, it is better that it be combined with the school of an adjoining district." But of the twenty districts in town fourteen have an average daily attendance of less than eleven and six less than six scholars each. Something should be done to combine some of them, even if there was no other motive than to bring together a larger number of pupils. But a financial consideration demands as few school districts as possible. It is well known that a sum varying from \$1,800 to \$2,000 is annually divided equally among them. Therefore, the less the number of districts, the more money each will receive. If they numbered but four less than at present, each would obtain about \$25 more school money—enough for three weeks' additional schooling in most of them, and this without any increase of taxation. We believe the town has wisely taken steps toward a diminution of the number of its school districts.

We are pleased to be able to say that the Walnut Grove district has already raised the money and contracted for the erection of a new schoolhouse. It is none too soon, for it is sadly needed.

The law enacted at the last session of the Legislature requiring "physiology and hygiene, including special reference to the effects of alcoholic stimulants and narcotics upon the human system," to be taught in the common schools has not as yet been complied with, owing to the want of a suitable text book on the subject. During the last year, however, quite a large number of works has

been published, and it is our intention to introduce the study at once and as extensively as the interests of the schools will permit.

The want of an efficient truant officer has been long felt. Many children were about the streets, and at work in the mills and shops, who should have been in the schools. Last September one was appointed with the compensation of \$20 per annum. The immediate result was an increase of about forty pupils in the village schools.

* United with district in Milton. † Primary. ‡ Grammar. § Intermediate.

EXTRACTS FROM STATE LAWS.

Section 7 of Chapter 85 of the General Laws of New Hampshire, in relation to penalties incurred by prudential committees for not expending school money :

SECTION 7. If the money assigned and paid over to the prudential committee of any district is not expended by him according to law, he shall be fined a sum not exceeding twice the sum so unexpended, or not legally expended, for the use of the district.

Sections 14 and 16 of Chapter 91 of the General Laws of the State of New Hampshire, in relation to compelling parents, guardians, masters and other persons to send children to school :

SECTION 14. Every parent, guardian, master or other person having the custody, control or charge of any child between the ages of eight and fourteen years, residing in any school district in which a public school is annually taught for the period of twelve weeks or more, within two miles by the nearest traveled road from his residence, shall cause such child to attend such public school for twelve weeks at least in every year, six weeks at least of which attendance shall be consecutive, unless such child shall be excused from such attendance by the school committee of the town, or the board of education of such district, upon its being shown to their satisfaction that the physical or mental condition of such child was such as to

prevent his attendance at school for the period required, or that such child was instructed in a private school or at home for at least twelve weeks during such year in the branches of education required to be taught in the public schools, or, having acquired those branches, in other more advanced studies.

SECTION 16. Any parent, guardian, master or other person violating the provisions of the fourteenth section of this chapter shall forfeit and pay the sum of ten dollars for the first offence, and the sum of twenty dollars for the second and every subsequent offence, to be recovered in an action of debt in the name of the district within whose limits the penalty was incurred, by the school committee of the town or board of education of such district. All penalties recovered shall be paid to the district, and added to the school money thereof.

Sections 11, 12 and 13 of Chapter 91 of the General Laws of the State of New Hampshire as amended by Chapter 56 of the laws of said State passed at the June session, 1881, in relation to employment of children in manufacturing establishments :

SECTION 11. No child under sixteen years of age shall be employed in any manufacturing establishment, unless he has attended some public school, or private day school, where instruction was given by a teacher competent to instruct in the branches taught in the common schools at least twelve weeks during the year preceding; and no child under said age shall be so employed, except in vacation of the school in the district in which he resides, who cannot write legibly, and read fluently in readers of the grade usually classed as third readers.

SECTION 12. No child under the age of fourteen years shall be employed as aforesaid, unless he has attended school as aforesaid at least six months during the year

preceding, or has attended the school of the district in which he dwelt the whole time it was kept during the year; and no child under twelve years of age shall be so employed unless he has attended the school of the district in which he dwelt the whole time it was kept during the year preceding.

SECTION 13. The owner, agent or superintendent of any manufacturing establishment, or any person connected therewith, who shall employ in such establishment any child under the age of sixteen years, without a certificate signed by a majority of the school committee of the town or city in which the child resides, or by such person or persons as they may designate for the purpose, that such child has attended school, as required by sections 11 and 12 of this chapter, shall be fined not exceeding twenty dollars for each offence.

Sections 6, 7, 8, 9 and 10 of Chapter 91 of the General Laws of the State of New Hampshire in relation to truants:

SECTION 6. Any town may make by-laws concerning habitual truants and children not attending school, without any regular and lawful occupation, between the ages of six and sixteen years, and to compel the attendance of such children at school, not repugnant to law, and may annex penalties for the breach thereof not exceeding ten dollars for each offence.

SECTION 7. Such towns may appoint three or more officers to enforce such laws, either of whom, and no other, may make complaint for such offences, and shall be authorized to serve any process relating thereto.

SECTION 8. Any offender against such by-laws, upon conviction, may, instead of such fine, be sentenced to the Reform School for a term not exceeding one year.

SECTION 9. Any such offender, on conviction and sen-

tence to pay such fine, may, in default of payment, be committed to the Reform School till the same be paid, or he is otherwise discharged, but the court or justice imposing such sentence may at any time discharge such offender, on proof that he is unable to pay said fine, and has no parent, guardian or person chargeable with his support able to pay it.

SECTION 10. Such offender so convicted may give bond to the town in the penal sum of twenty-five dollars, with sufficient sureties, approved by the court or justice before whom he was convicted, conditioned to attend regularly some district or other school kept in such town, for one term next ensuing, when the same is kept, to comply with the regulations thereof, and to be obedient and respectful to the teacher: and his fine may thereupon be remitted by such court or justice on payment of the costs.

Chapter 42 of the laws of the State of New Hampshire, passed at the June session, 1881, authorizing school committees and boards of education to elect truant officers:

SECTION 1. The superintending school committees and boards of education in the several towns and cities of the State are hereby authorized to elect truant officers for said towns and cities, and to fix their compensation at a reasonable rate, which compensation shall be paid by the respective towns and cities.

SECTION 2. Said truant officers may be discharged by said committees for cause, but unless sooner discharged shall hold their offices for one year, or until their successors shall be appointed and qualified.

SECTION 3. It shall be the duty of said truant officers, under the direction of said committees, to enforce the laws of the State and the ordinances of said towns and cities, and the regulations of said committees not repugnant to law, in regard to truants and children between the ages of

six and sixteen not attending school, and without any regular and lawful occupation, and to compel the attendance of such children at school in obedience to law and to the regulations of said committees.

SECTION 4. Said truant officers shall also, if required by said committees, enforce the laws in regard to children employed in manufacturing establishments without attending school as required, and shall perform such service in that behalf as may be required by said committees.

SECTION 5. This act shall take effect from its passage (approved August 4, 1881).

By-laws in reference to truant children adopted by the town of Rochester, N. H., at a special meeting, July 21, 1883 :

SECTION 1. Any child in this town between the ages of six and sixteen years, without any regular and lawful occupation, who shall, except in case of ill health, neglect to attend school, or become an habitual truant, shall, on conviction thereof, be fined not less than one nor more than ten dollars. And for the purposes of these by-laws all children between the ages aforesaid residing in this town who, without sufficient excuse, shall absent themselves from school four or more times in the course of any one school term, shall be taken and deemed to be habitual truants.

SECTION 2. Instead of the fine aforesaid, any child convicted of such offence may be committed to the Reform School for a term not exceeding one year.

SECTION 3. Whenever any child between the ages aforesaid, belonging to any public school in this town, shall be found during school hours in or near any street, square, public place or place of amusement or resort, without sufficient excuse for said absence from school, such child shall, in the first instance, be apprehended and taken to

such school, and notice given to the parent, guardian or master of the person so taken: and for any subsequent offence the offender shall incur the penalties prescribed in sections one and two of these by-laws.

SECTION 4. The police court of the town of Rochester shall have cognizance of all offences under these by-laws as in other criminal cases.

•

REPORT OF DISTRICT No. 8.

Our schools for the year have been fully equal to those of any preceding year. Many of them are not excelled in this vicinity, as is attested by the large number of visits they receive from teachers of neighboring towns, who come to observe methods.

Seven of our present teachers are graduates of our high school, and are proving to be very acceptable and valuable instructors. We are just beginning to reap the fruits of our graded school system, inaugurated eleven years ago, and which has been the chief factor in attaining the high standard of success to which our schools have arrived, through many vicissitudes and discouragements by the way.

The new school building was first occupied at the commencement of the fall term with about two hundred and eighty-five scholars, of whom about one hundred were high and the balance grammar school pupils. It was really none too soon, for the large class entering the high school at the fall term so swelled its numbers that it would have been impossible to have accommodated them at the old high schoolroom.

Aside from the convenience and attractiveness of the rooms, it offers so many advantages over the old, small, inconvenient schoolrooms, of forbidding appearance, that they cannot all be well enumerated here. But a few may

be mentioned, among which are the special advantages it offers in necessitating the placing of only one class under each grammar school teacher, and thus giving opportunity for more thorough and effective work. Another is the uniformity of heat in the rooms at nearly all hours. No time is wasted in getting rooms warmed in the mornings, and scholars and teachers are not made dull and stupid by reason of over-heated rooms. And still another advantage is its supply of water, and the privileges and conveniences occasioned by this supply.

It marks a long stride forward in the educational facilities of the village, and will enhance its material growth and prosperity more than could an equal amount of money otherwise expended.

But, notwithstanding the new building accommodates so large a number of scholars, we have only two vacant schoolrooms, and one of these we are pretty sure to need next term.

Books in abundance during the year have been published on physiology and hygiene, treating in connection therewith upon the effects of alcoholic stimulants and narcotics.

There is, therefore, no longer any lack of suitable text books on the subject, and steps have been taken to introduce the study next term.

HENRY KIMBALL, Secretary.

RULES AND REGULATIONS

FOR

SCHOOL DISTRICT No. 8.

CHAPTER 1.

RULES OF THE BOARD OF EDUCATION.

SECTION 1. On the first secular evening after the annual meeting of the school district, the board of education shall meet at seven and one-half o'clock for organization.

SECTION 2. *The Officers* of the board shall be a president, secretary and treasurer, chosen by ballot and major vote.

SECTION 3. *Meetings*.—Regular meetings of the board shall be held on the second and last Tuesdays of each month at 7 1-2 o'clock. Special meetings of the board shall be called by the secretary, whenever he may deem it necessary, or at the request of two members.

SECTION 4. *Quorum*.—A majority of the members shall constitute a quorum.

SECTION 5. *Rules*.—Meetings shall be conducted, except when special provision is made, in accordance with the usual parliamentary rules.

SECTION 6. *The Duties of the President* shall be to call the members to order at the appointed time, and preside at all meetings. In his absence a president pro tem. shall be elected.

SECTION 7. *The Duties of the Secretary* shall be to call special meetings as provided in Section 3, to keep a fair record of the doings of the board in a book suitable for that purpose, in which he shall enter all proceedings in full, including all important reports of committees, and also the names of the members present at each meeting.

SECTION 8. He shall receive all formal applications for positions of teachers or other offices, place them on file for the inspection of the board, and shall notify all school officers of their election or appointment.

SECTION 9. He shall also seasonably furnish to the officers of the state all the returns required by statute to be made to them; shall promptly inform teachers and janitors as to what members of the board are charged with the several duties of procuring fuel, making occasional repairs, furnishing miscellaneous supplies, books, etc., at the expense of the district; shall see that school officers are supplied with copies of the last revision of the rules and regulations, and promptly notify them of any change made in them; shall conduct all necessary correspondence for the board, and perform all other duties that appropriately belong to the office of secretary.

SECTION 10. *The Treasurer* shall have the general supervision of all financial matters relating to the schools; shall draw the money to which the district is entitled from the town officers as occasion may require, and receive and collect all money otherwise due the district; shall pay the teachers of all the schools, and the janitor of the new school building, a proportional amount of their salaries at the middle and close of each term, and all other bills when presented, if certified as required in section 13; and shall annually make and seasonably report to the board a careful estimate of the expenses of the schools for the ensuing year, to be laid before the district at its annual meeting.

SECTION 11. *Special Duties of Members.*—Members of the board may be charged with the performance of special duties as occasion shall require.

SECTION 12. *Supervising Members.*—The members, to whom shall be assigned the duty of supervising the schools, shall examine teachers, and report their qualifications to the board. They shall keep themselves informed in regard to all improvements and suggestions made upon the subject of public school instruction, and recommend all such improvements as they deem practical and expedient. They shall visit the schools systematically, and direct the methods and details of instruction, pointing out defects and suggesting remedies; and shall give especial attention to schools taught by new and inefficient teachers. They shall secure as far as possible harmony and uniformity of work in all departments of the same grade, and keep a scheme of the orders of exercises in all the schools. They shall prescribe the boundaries of the different schools, and see that they are observed; in conformity to the Regulations of Schools, Chapter 5, they shall examine applicants for admission to the schools, and assign them to the proper grades, examine schools and direct the promotions to be made, and may degrade any scholar who, in their opinion, is in a grade more advanced than his qualifications should allow, subject, however, to the approval of the board. They shall also report to the board the names of all scholars they may deem qualified to enter the high school. They shall cause these rules and regulations to be strictly observed, and report to the board all violations or neglect of them; and shall direct and assist the truant officer in his duties, and otherwise strive to improve the school attendance.

SECTION 13. *Bills.*—Each member shall certify upon bills contracted by him the accuracy of the same before they shall be paid.

SECTION 14. *Election of School Officers.*—Teachers of all schools, and also the janitor of the new school building, shall be elected annually in July by ballots bearing the name of the person voted for, and by a major vote of the board. But whenever for any reason there may be a delay in filling any position, or whenever a vacancy shall occur after the annual election, it may be filled at any time in the same manner.

SECTION 15. Any officer named in the last section, not holding at the time of his election a position in the district of the same grade as that to which he is elected, shall be on probation, his services to expire at the close of any term of school, in case his election is not confirmed for the balance of the official period by a vote of the board.

SECTION 16. All teachers shall hold their positions until the next annual election, and the janitor named for one year ending the first day of August after the next annual election, except as provided in the last section, unless in the meantime they are removed by the board. Teachers will not be allowed to resign without giving at least one month's notice, except for causes satisfactory to the board.

SECTION 17. Other janitors may be appointed by the board or by any authorized member at any time, and for such periods as may be deemed expedient.

SECTION 18. *No Substitute* shall in any case occupy the place of any teacher until the approval of the board has been obtained and the compensation determined. But whenever any temporary indulgence or leave of absence may be desired, application may first be made to the supervising members.

SECTION 19. *The Annual Salaries* of school officers shall be determined at the time of their election, and, if on probation, their salaries shall not be subject to a change at time of confirmation.

CHAPTER II.

DUTIES OF TEACHERS AND DISCIPLINE OF THE SCHOOLS.

SECTION 1. *General Duties.*—Teachers shall make teaching their only regular business and prepare themselves to instruct their several classes faithfully, impartially, and effectively according to the regulations prescribed by the board and the provisions of the laws of the state. They shall use their best efforts to promote diligence, courtesy and obedience, and to inspire their pupils with an enthusiasm for study; shall in all subjects or methods, in which it is possible, teach the reason with the subject or method, and make every effort to develop the reasoning faculties of the pupil. They shall follow the course of study and during term time shall not instruct pupils in other than the branches prescribed in the course, nor give instruction to private pupils without the consent of the board first obtained.

SECTION 2. *The Principal of the High School* shall have the management and control not only of the high but of all other scholars in the building or about the premises, when not in the rooms with their respective teachers. He shall also, when his assistance is needed, attend to cases of discipline in any part of the building. Other teachers will cheerfully co-operate with him in the execution of his plans and wishes.

SECTION 3. *Opening of Schools.*—The schools shall be opened punctually at the appointed time and the morning exercises shall begin with the reading of a selection of Scriptures. It is recommended that this reading be followed by some devotional exercise.

SECTION 4. *Order of Exercises.*—Every teacher shall prepare and keep an order of exercises in the schoolroom where it may be seen by the scholars and visitors.

SECTION 5. *Physical Exercises*.—There shall be short calistemic exercises as often as once each session in all except the high school, and teachers, especially those of the lower grades, shall endeavor to relieve their pupils by a variety of exercises, change of position and the like, as far as can be done without interfering with the school work.

SECTION 6. *Discipline*.—Teachers shall exercise the same authority over their pupils during recess and on the premises as in the schoolroom. They shall aim by precept and example to improve the manners and morals of their pupils. They shall avoid corporal punishment in all cases when good order can be preserved by milder means, and when inflicted they are to preserve their self-control and refrain from exhibiting anger or impatience.

SECTION 7. *Suspension and Expulsion*.—The principal of the new school building, or a teacher in any other building, may suspend from school a scholar of any, excepting grades I, II and III, for violent or obstinate resistance to authority or gross misconduct: but he shall immediately report the case to a supervising member of the board and to the parent or guardian of the scholar. When the conduct, example or general influence of a scholar becomes very injurious and his reformation appears hopeless, or he manifests a determined disregard of the rules and good order of the school, he may be expelled by the board. Any scholar suspended, on giving evidence of amendment, may be restored by the supervising members of the board: otherwise the case shall be reported to the board for its action. Any scholar expelled may be re-admitted on probation, and, on ample proof of reformation, may be restored by vote of the board.

SECTION 8. *Scholars Leaving Under Censure*.—Teach-

ers shall give immediate notice to the supervising members of the board, whenever a pupil shall leave while under censure; and such pupil shall not be permitted to attend any public school in the district, except by order of such members.

SECTION 9. *Care of Schoolrooms and Premises.*—Teachers shall be in their respective schoolrooms at least fifteen minutes before the opening of each session to admit pupils, suppress boisterous or disorderly conduct, and see that no school building, room or property is damaged or defaced: that the schoolrooms are clean, and that entries, yards and out-buildings are kept in good condition, and in executing this last requirement they may command the services of the janitors. They shall also see that the windows in their respective rooms and entries are fastened, and the doors locked, at the close of the exercises of each session of school. During intermissions pupils shall be allowed to remain in none but the new school building, and as few as possible in this. These shall occupy only such rooms as the principal shall assign them, and each sex shall be restricted to a separate room. Teachers shall make such rules as are necessary and reasonable for good order and neatness on the school premises.

SECTION 10. Teachers shall keep the doors leading to the basements of the schoolhouses on Maple street and School street locked, and allow no pupil, excepting such as may be acting as janitors, to enter these basements unless by special permission.

SECTION 11. *Liability for Damages.*—Teachers shall be held responsible for the school property entrusted to their care: but all injury done to it by any scholar shall be paid for by the parent or guardian.

SECTION 12. *Profanity, Indecent Writing and Wilful Damage.* Any pupil who shall, on or near the school

premises, use or write any profane or indecent language, draw or exhibit any obscene picture or representation, or shall wilfully damage or deface any school property, shall be liable to expulsion and prosecution.

SECTION 13. *The Use of Tobacco* in any form and games of chance, on or near the school premises, are strictly prohibited.

SECTION 14. *Ventilation and Temperature*.—Teachers shall be extremely careful that their rooms are properly ventilated, that the temperature is kept as near as possible to 68 degrees Fahrenheit, and that children are not allowed to sit in a draft of air.

SECTION 15. *School Registers*.—Teachers shall fill up and return their school registers in strict conformity to the directions contained in them, except when otherwise directed, and shall also keep for their use, and for that of the supervising members of the board, an accurate list, giving the full name, age and grade of each pupil, and the name of the street upon which he resides.

CHAPTER III.

DUTIES OF JANITOR.

SECTION 1. *Janitors of all Schools* are to have charge of all rooms in the school building and of all school yards and out-buildings, and shall keep them in good condition.

SECTION 2.—They shall keep all necessary paths in the yard free from snow and ice, sprinkle the steps and walks with sand when slippery, examine all out-buildings daily, and keep them in perfectly good order, promptly report all nuisances or defacements committed in them to the teachers, with the names of those they may detect in, or suspect of, committing the same, and shall unlock them in the morning and lock them at night before and

after each school day. They shall sweep every schoolroom as often as every alternate school day, and the halls and passageways as often, at least, and oftener, if necessary, to keep them in a neat condition, and shall dust all furniture each morning before the opening of the school session. They shall have each schoolroom properly warmed at least thirty minutes before the beginning of each school session, and shall seasonably notify the member of the board charged with the duty of furnishing fuel when any material for making or kindling fires, or other supplies necessary to the performance of their duties, are wanted. At all times, except during the session of the school, they shall keep the windows and the doors locked, and, except at the new school building, shall allow no one to enter any school building in the absence of the teachers.

SECTION 3. *The Janitor at the New School Building*, near Granite street, shall perform such of the duties prescribed in the two preceding sections as are not inapplicable to his school building and premises. During each term of school he shall devote his whole time to his duties as janitor, except that he may also perform the duties of truant officer if appointed to that office by the school committee and paid by the town; shall at all times keep the premises in a neat and orderly condition, and during vacation shall have the care and oversight of them and see that no damage is done. He shall wind and regulate the clocks and keep them in good order, shall thoroughly cleanse all rooms, halls, passageways and all windows as often as twice each year. He shall have the charge and management of the wind-mill for pumping water, keep the school building properly supplied with water and shut it off at the beginning of each vacation and every night in severe weather. He shall give his personal attention to the heating apparatus while in use, and keep it in good condition at all times.

SECTION 4. He shall be present half an hour before the beginning of the morning session of schools, during the entire intermission, during recesses and twenty minutes after the close of the afternoon sessions, and shall co-operate with the teachers in the maintenance of good order about the premises, and assist in the supervision of the pupils during recesses, and while forming to march into and out of the building, and shall, during intermissions, have charge of all pupils allowed to remain in the building, restrict them to the rooms assigned them by the principal, suppress all boisterous or disorderly conduct, see that they do not damage or deface the building, or otherwise violate the school regulations, and shall allow no other pupils to enter the building in the absence of their teachers. He shall report to the principal each day for such services as may be required of him.

SECTION 5. *Repairs.*—He shall make such minor repairs as he conveniently can, such as setting glass and the like. All other needed repairs, all damages and nuisances he shall report to the board of education.

CHAPTER IV.

THE SCHOOL YEAR, SCHOOL HOURS, HOLIDAYS AND VACATIONS.

SECTION 1. *The School year* shall begin the Monday nearest the first day of September, and shall consist of thirty-six weeks, and be divided into three terms of twelve weeks each. The fall term shall begin at the beginning of the school year, and be followed by a vacation of two weeks. The winter term shall commence the Monday following the vacation. The spring term shall commence the first Monday of April.

SECTION 2. *Holidays.*—Every Saturday, Fast Day, Christmas Day and Decoration Day shall be allowed as

holidays. When either of the two days last mentioned shall occur on Saturday or Sunday, the following Monday shall be allowed instead. Teachers may close their schools one day each term to visit other schools, providing the selection of the day and of the schools to be visited shall be approved by the supervising members of the board. Other holidays will be granted only by consent of the board. Days when the weather is very inclement, teachers will be required to have but one session of school.

SECTION 3. *School Sessions*.—There shall be two daily sessions of all the schools. The forenoon session shall begin at 8 3-4 o'clock and continue three hours, the afternoon session at 2 o'clock from the commencement of the spring term to October 15th, and at 1 1-4 o'clock for the remainder of the year, and continue three hours, except in grades I, II, III and IV,—in these two hours.

SECTION 4. *Recesses*.—Every school shall have a recess of twenty minutes each session. In no case shall a pupil be wholly deprived of a recess as a punishment.

CHAPTER V.

ADMISSION, PROMOTION, EXAMINATION AND ATTENDANCE.

SECTION 1. *Infectious Diseases*.—No scholar or teacher shall be allowed to attend school from any house in which small-pox, varioloid, scarlet fever, measles, or diphtheria prevail; and no scholar or teacher known to have been exposed to these diseases shall attend school until all danger therefrom is passed; and no one who has been affected with any of them shall be permitted to enter school until convalescence is complete. When any pupil shall be affected with any of these diseases the teacher shall promptly report the fact to the supervising members of the board.

SECTION 2. *Scholars Residing Beyond the Limits of the District* may be permitted to attend its schools, except in cases when such attendance would crowd any school beyond its accommodation. When so permitted they shall pay tuition at or before the middle of each term as follows: In the high school six, in the five higher grades of other schools four, and in all other grades three dollars a term.

SECTION 3. *Boundaries*.—Teachers shall receive or retain in their schools only those scholars whose residences are within the prescribed boundaries of their respective schools, except by consent of the board. Parents or guardians may, in case of their removal from the prescribed boundaries of any one school to those of another, continue their children in the school they are attending till the end of the term. No scholar, however, shall be received from one school into another without the approval of the supervising members of the board, nor without a certificate of transfer from the teacher whose school he leaves, stating the name, age, grade, standing and reason for the transfer: and the teacher receiving such scholar shall immediately acknowledge the receipt of the certificate.

SECTION 4. *Admission*.—Children, if residing within the boundaries of the school and qualified to enter some one of the classes, shall be admitted to the lowest grade of schools at any time without a certificate, except such as may be required by the provisions of the last section; but if unable to read they shall be admitted only at the beginning or middle of the term. A scholar may be admitted to other grades by promotion as provided in the following sections, 7 and 8, or if he has not been a member of a lower grade during the preceding term, then, after due examination, by a certificate stating the grade which the scholar is qualified to enter, and signed, if to the high school, by the full board, otherwise by the supervising

members of the board. No child under five years of age shall be admitted to any school.

SECTION 5. *Written Examinations* shall be given in all classes of the high school and in grade IX of the other schools at the close of each month, sufficiently severe to test the pupils' knowledge of the work of the previous four weeks, and a copy of the questions used shall be returned to the secretary of the board within one week after the examination, to be placed on file.

SECTION 6. *Ranking*.—On these examinations, and likewise on the daily work, scholars are to be ranked, and a unite of the rank on each examination shall have one-half the weight of a unite of the averaged rank on the daily work of the month. In determining each scholar's average rank two unites, on a ranking scale of one hundred, shall be deducted for every instance of disobedience or improper conduct. A record of each pupil's rank in each subject, and also his average rank, shall be kept by the teacher in a suitable book, which shall, at all times, be open to the inspection of the board.

SECTION 7. *Promotions, Etc.*—Scholars whose rank in each subject of the work of the preceding year shall not fall below 55 per cent., and not below 65 per cent. on the entire work, after deductions for disobedience and improper conduct, shall be promoted one grade annually, at the beginning of the fall term. Scholars whose rank shall at any time fall below the standard required for promotions may be put into the next lower grade, unless in the judgment of the board extenuating circumstances may justify a longer retention in his class.

SECTION 8. Scholars in all other grades shall be promoted or degraded, as the supervising members of the board may deem advisable, subject, however, to a revision by the board.

SECTION 9. *Advanced Standing*.—Any person admitted to advanced standing in the high school shall not be permitted to compete for class honors unless he joins his class as early as the commencement of the second year, nor then until he has been critically examined and ranked on the previous work of the class, or its equivalent.

SECTION 10. *Monthly Reports* of the deportment of each pupil in the grades named in section 5, also of his rank in each subject and his average rank, shall, whenever deemed advisable, be sent to the parent or guardian, together with a notice, first, that the scholar's deportment is unsatisfactory and asking for an interview; second, that the scholar's lessons are not satisfactorily prepared and requesting the co-operation of the parent or guardian.

SECTION 11. *Excused Absence*.—Legitimate causes for absence from school are sickness, domestic affliction, danger of serious or imprudent exposure of health, necessary absence from town, and no others. Absence from such causes shall not affect the standing of any scholar, provided a written excuse or personal explanation from his parent or guardian is seasonably furnished, when deemed necessary, and the scholar passes within a seasonable time a satisfactory examination in the studies pursued during his absence.

SECTION 12. *Unexcused Absence, Tardiness, Leaving School Before Close of Term*.—Tardiness shall be considered equivalent to one-fourth of a day's absence: and any scholar, in any but the two lowest grades of school, whose absence and tardiness shall amount to seven days in any term, or who shall have left school before the close of a term, shall cease to be a member of the school, and shall be re-admitted only by the written consent of the supervising members of the board, on condition of making up within a reasonable time the lessons lost. Scholars who

are absent one-fourth of the time in any term may be put into the next lower grade.

SECTION 13. *Leaving School During a Session.*—No scholar, except in the two lowest grades of school, shall be allowed to leave the school during a session, or before dismissal of the school, unless on account of sickness or some pressing emergency, of which the teacher is to judge; and a written or personal request from the parent or guardian shall be required when the necessity is not evident.

SECTION 14. *Truancy.*—Teachers shall report the names and residences of all truants and of those suspected of truancy, together with the names of their parents or guardians, to the truant officer as early as practicable, by mail or otherwise; they shall also keep a record of the names of all truants, which shall be open at all times to the inspection of the members of the board and of the truant officer.

CHAPTER VI.

TEXT-BOOKS AND STUDIES.

SECTION 1. *Courses of Study.*—The high school course of study covers a period of four years, and contains an English, English and Latin, and Classical division, as at present arranged, subject to such modifications as the board shall direct. The course for the other schools shall be divided into nine grades, each grade including an average year's work, and designated by Roman numerals from I to IX, beginning with the lowest—the number corresponding with the year in the school.

SECTION 2. *Selecting Divisions.*—Pupils will be expected to decide when they enter the high school which of the divisions they will pursue, and will not be permitted to change after the commencement of the second year.

SECTION 3. *Graduation.*—Pupils of the English division will be allowed to graduate in three or four years, at their option. Those graduating in three years will not be permitted to compete for class honors, the others will compete for all but the salutatory and valedictory. Graduates of any division of the high school course will be awarded suitable diplomas.

SECTION 4. *Change of Text-Books and Studies.*—No change shall be made in the high school course of study, or in the text-books used in the schools, and no new text-books introduced, except by a major vote of the board at a regular meeting, notice thereof having been given at a previous meeting. But no vote in relation to any change or introduction of text-books shall be taken while any school-book agent is present at the meeting or known to be in town.

SECTION 5. *Books of the District.*—Books for reading, for instruction in the English language, writing-books, drawing-books, slates, penholders, pens and pencils, when they are furnished by the district, shall be in the care of the teachers. They shall not allow their pupils to take them from the schoolrooms, nor to have them in their possession longer than while they absolutely need to use them. The books for reading and for instruction in English language the teacher may distribute in season for pupils to prepare lessons in them, but not over fifteen minutes before the recitations.

SECTION 6. *In all Books Belonging to the District* shall be written or printed the phrase, "The Property of School District No. 8, Rochester, N. H." Those which are only for reference shall also be numbered, and when a pupil has any of these in his possession it shall be charged to him, in a book kept for the purpose, and he shall be held accountable for all damage done it. Scholars are to be

encouraged and directed to use them, but not permitted to take them from the school building, except by special permission of the teacher, and then to be retained no longer than the beginning of the next school session.

SECTION 7. *Text-Books Needed.*—Whenever a scholar is not supplied with all the text-books required in his class, the teacher shall direct him to apply to his parent or guardian for the same. If after such direction the pupil shall not be supplied, the teacher shall forthwith cause a written notice to be delivered to the parent or guardian, specifying the books required and requesting that they be furnished.

SECTION 8. *Supply of Books by the Town.*—If the parent or guardian, after being notified as directed in the last section, shall neglect to furnish the books required within a reasonable time, the teacher shall report the fact to the school committee of the town in writing, specifying the books needed, the pupil's name and the name and residence of the parent or guardian.

SECTION 9. It shall be the duty of all school officers to acquaint themselves and the scholars thoroughly with the school regulations, and within their respective jurisdictions to enforce them.

SECTION 10. These rules and regulations, or any part of them, may be repealed, amended, or additions made thereto by a major vote of the board, notice thereof having been given at a previous meeting.

HIGH SCHOOL COURSE OF STUDY.
